16. Timesheet Admin	**17. Finance**	**18. Legal**	**19. Business User**	**20. Team Member**
21. Timesheet User	**22. Ecosystem Partner**	**23. Startup**	**24.**	**25.**

Critical Controllers
High complexity and + cross-module control + high governance impact

Operational Orchestrators
High activity volume + multi-touchpoint execution ownership, require dashboards

Specialized Owners
Deep module Expertise with focused scope

Transactional Users
Low complexity, high volume, Enter Data, Trigger Workflows, Limited Decision Authority

External Actors
Participate in selective stages Limited system ownership
